FITCH AND DAVIS.—The brutal retaliatory order of the Jeff. Davis Government in regard to General Fitch's command, published in our issue lately, reminds us of a dialogue which took place at Washington about two years ago between Davis and Fitch. Fitch was then United States Senator from Indiana. He was an unrelenting anti-Douglas Democrat, not so much probably from principle as on account of a long standing personal feud between him and the eminent Senator from Illinois. Davis and Fitch were ranked as leaders in the war waged upon Douglas at the period of the Lecompton controversy. The latter was even more bitter in his assaults upon the anti-Lecompton chieftain than the former. Some two years or more ago, Davis and Fitch were members of the same Standing Committee of the Senate. One day, at the close of a session of the Committee, a discussion happened to arise between them as to the course the South would probably pursue in the event of Lincoln's election. Davis declared that the Cotton States would withdraw from the Union, establish an independent Government, and if need be, take up arms in its defense. Fitch doubted the fact, but assured the arrogant Mississippian that, if the South attempted anything of the sort, the North would meet force with force. The discussion waxed warmer and warmer. Said Davis, "Do you mean to say, that if we of the Cotton States set up a Government of our own, you of the North will come down and try to subjugate us to Federal authority?" "I do!" responded Fitch, with emphasis.—"What!" replied Davis, rising from his seat, "do you say that you would invade our soil and endeavor by force to compel sovereign States to return to the Union—that you of the North would try to conquer us?" "I mean," replied Fitch, rising and speaking slowly and firmly, "that if the States on the lower Mississippi attempt to set up an independent Government, we of the Northwest, who hold the sources of that river, will invade your territory with forces sufficient to subdue you, State by State, county by county, till you submit to Federal authority!" A little more than two years have passed since this dialogue transpired. Fitch commands a brigade of Union troops in Arkansas. He recently executed a rebel for murder. Thereupon Davis directs his Adjutant General to issue an order proclaiming Fitch and his command outlaws, who, if captured, are not to be treated as prisoners of war. The order is aimed personally at Fitch, directing that if he be taken, he shall be confined as a felon and dealt with accordingly. We are of the opinion that if the troops of Graham N. Fitch meet in equal force those of Jefferson Davis, they will give the latter ample cause to remember the encounter.—*N. Y. Tribune.*

Salem, Wednesday, Oct. 1st, 1862

OREGON STATE FAIR—SECOND DAY.

Early this morning parties who had previously entered stock and articles for exhibition, gathered upon the grounds and opened out their various wares or brought their stock from the stalls, but in continuance of the rain, the principal portion of the stock was returned to the stalls and the people gathered under sheds or crowded into the main pavilion where a large amount of the various articles on exhibition were to be seen tastefully arranged and appropriately located. The rain having ceased, (only at intervals,) about noon, Simeon Francis, President, delivered the opening address and declared the Second Annual Fair of the Oregon State Agricultural Society duly opened. The address was attentively listened to by a very large concourse of people, and we unhesitatingly pronounce it excellent, short and to the point. We have heard it suggested by many that they would be glad to see it in print, and hope that the address will be published with the awards.

The remaining portion of the day was principally spent in examining the many curiosities and wonderful productions to be seen in the pavilion, and in witnessing the trial of speed between numerous scrub races gotten up for the purpose of beating down the track and one or two pacing and trotting matches for the prize offered in the catalogue. The pacing race was decidedly the most important and interesting of this day's performances upon the track, resulting in the winning of the prize by the horse named "Pike"—entered by Mr. J. F. Quinn of Portland against the horse "Selim"—entered by Mr. Leonard, also of Portland. Very good time. We are still unable to give in detail the various kinds of stock and articles entered upon the books of the Society thus far, owing to the fact that a large number of entries were made during this day. We presume that most all the entries have been made that will probably come in during the Fair, though the time for making the same has been continued until 9 o'clock to-morrow.

A large number of people visited the grounds during the day, and among the most attractive sights to be seen was a brass band from Yamhill county, composed of the children of F. Holdridge, four in number, three boys and one girl, and led by their father who played a number of familiar tunes in an excellent manner. We also noticed the presence of Denison's Cornet Band from Portland, upon the grounds in the evening, who performed in their usual excellent style, fully sustaining their well known reputation as musicians.

Both branches of the Legislative Assembly adjourned during the day, to participate in the exercises upon the Fair Grounds, and we are pleased to say that every member appeared to take proper interest in the occasion. We also noticed quite a large delegation from Multnomah county, who gave unmistakable proofs of a desire to patronize and assist in the main objects sought to be attained. We learn that the receipts of yesterday (first day) amounted to nearly fifteen hundred dollars. The receipts of to-day will not fall much short of those of yesterday.

Fire.—A dwelling house, valued at $1,000 together with a considerable amount of household furniture was burned to ashes on Tuesday night last, in Salem. The house was the property of Mr. Jordan, who is now in the upper Columbia mines, and was occupied by Mrs. O'Donnel. The "Hooks" made a splendid run to the scene of conflagration and succeeded in getting the first water on the—house adjoining. We noticed that "Willamette No. 1" and Multnomah No. 2, of Portland, were represented "on the ropes." O'Donnel, the husband of the lady occupying the house has been arrested on suspicion of having set fire to the premises. He has for some time past been threatening acts of violence against his wife, on account of some difficulties that had arisen between them.

Amusements.—The citizens of Salem and visitors to the Fair Grounds have had a fair opportunity of agreeably spending the evenings in witnessing the amusing performances of Denison's Opera Troupe, from Portland, who are holding forth to crowded houses each night since Monday last. This troupe appear to be duly appreciated, as they deserve to be, by strangers as well as by the citizens of their own town.

"Martin, the Wizard," is also here and as in Portland draws nightly crowded houses. His tricks are truly wonderful.

Indian Outrage.—A party of twelve persons, who left Auburn in July last for the States, when beyond Fort Hall were attacked by Indians, and five of their number shot. Two of them died from their injuries. The balance succeeded in making their way back, some of them being now at the town of Auburn.—*Mountaineer.*

The Immigration.—It is said that there are five hundred wagons that have not yet crossed the Powder river. These are in addition to the number with the military escort which must be very large.—*Mountaineer.*

Memorial for a Branch Mint

Mr. Hayes, [illegible] committee on federal relations [illegible] memorial, which was [illegible] both Houses:

Memorial [illegible] Assembly [illegible] State of Oregon to the Congress of the United States, asking for the establishment of an Assay Office and Branch Mint at Portland, Oregon.

To the Honorable the Senate and House of Representatives [illegible]

The Legislative Assembly of the State of Oregon [illegible] within the last two years [illegible] of this State and [illegible] Washington Territory. The [illegible] these mines, though yet only very partially developed, [illegible] not less than half a million dollars per week, and the [illegible] that when [illegible] fully developed [illegible] equal in extent and [illegible] anything yet discovered upon the continent.

Engaged in these mines are supposed to be not less than fifty thousand men, and their numbers are being constantly swelled by large additions from the adjoining State of California as well as by immigration from Pike's Peak and the States East of the Rocky mountains.

The main point from which supplies for the mining region are carried [illegible] and will continue to be drawn is the city of Portland in this State. Purchases and shipments of merchandise and machinery for working the mines will be made at that city, and the gold taken from them will be brought there for sale and transmission.

Your memorialists would further represent that the Branch Mint situated at the city of San Francisco, State of California, is too distant from those engaged either in the business of mining or trading in the gold regions of Oregon and Washington Territory to allow them to enjoy any of its benefits, and such persons are compelled to bear the great delay and incur the dangers of its transmission to San Francisco of this bullion or [illegible] of the same in the city of Portland at a great loss. In view of these facts, and fully impressed with the belief that the yield of these mines will be permanent and imperatively demand, as a matter of justice to the thousands who are engaged in extracting their untold wealth, the establishment of a branch Mint and Assay Office at the city of Portland in the State of Oregon, your memorialists would respectfully ask your honorable body to make suitable provisions therefor.

JOEL PALMER,
Speaker of the House.
WILSON BOWLBY, President of the Senate.

Fort Benton—Boat Building—Immigration, &c

Mr. Haggard, of Haggard & Dennee's Bitter Root and Fort Benton Express, called on us yesterday, and from a long and interesting conversation with him, we glean the following items, which will be of interest to our readers. Mr. Haggard left Fort Benton with the express on the 12th, and arrived at Elk City on the 20th inst., making the distance between these two points, 420 miles, in *eight days.* There was quite a large number of immigrants, their train consisting of 40 wagons, at Fort Benton on their way to Washington Territory, a majority of whom intend to settle in Deer Lodge and Bitter Root valleys. At American Forks, about 200 miles from Fort Benton, quite a village has sprung up. In all the rich valleys and bottom lands in the vicinity of the military road, immigrants have staked off their claims, built cabins, and given other evidences of their intention to make their homes in this Territory. At the mouth of Milk river, some 800 or 1,000 miles below Fort Benton, six small steamers were being constructed by the Fur Companies La Barge, Harkness & Co. and the American Fur Company, for the navigation of the Missouri between the falls and Milk river. Communication will thus be open during the entire season between St. Louis and Benton. The Companies propose to bring freight, from St. Louis to Benton, at the rate of four cents per pound—a reduction of six cents from former rates.

New gold diggings were constantly being discovered. At Big Hole there were about 100 miners, at Beaver Head there was a still greater number, probably 400. The diggings at Big Hole have prospected 25 and 50 cents to the pan, and at Beaver Head as high as $2.50 had been washed in one pan; and of course, was attracting by far the largest share of attention. The immigrants, generally, were provided with provisions for the winter, were suited with the country, spoke cheerfully of their future prospects, and had gone to work in earnest to provide for themselves comfortable homes. It is thought that the immigration next season by way of Fort Benton, will be more than treble that of the present.—*Golden Age.*

Observatory Maury, who waxed rich and famous in the service of the United States and then sold himself for a mess of Secesh pottage, thus echoes the rebel yelp against Yankees:

"The negro is not, as the Yankee would have the world believe, the cause or the object of the war. The tariff and hatred of the Yankee character—they are the true causes. They are a nation of shopkeepers and peddlers, and under pretext of raising revenue to maintain the Government, Southern industry was taxed to support Yankee work shops. With this they waxed fat and grew insolent, until their insolence became unbearable."

Appropriations of the Last Congress.—The recapitulation of the appropriations by the late session of Congress is as follows:

For Legislative, Executive and Miscellaneous, $1[illegible]; for the support of the Army for 1862, $[illegible]; for the support of the Navy for 1862, $[illegible]; Diplomatic and Consular, $1,21[illegible],889 80; for the Army for 1862 and 1863, $[illegible]; for the Navy for 1862 and 1863, $[illegible]; Indian Department, $2,117,962 09; Military Academy, $[illegible]; Fortifications, $7,015,000; Invalid and other pensions, $[illegible]; Treaty with Hanover, $[illegible]; Total, $[illegible].

Gen. Mansfield.—Alluding to the death of this brave officer, the Stockton *Independent* says:

Gen. Mansfield was over 60 years of age, and had been in the service as an officer since 1817. He planned the battle of Buena Vista, and was the hero of the battle of Monterey. His death was such as a brave soldier would have wished for. His country will take care of his fame.

Ex-Governor Hicks of Maryland, who declined a Brigadier General's ship tendered him by the President, has joined a company as a private at Cambridge, Dorchester county, Maryland.

It is reported that a camp of instruction for 80,000 to 100,000 troops will be established near Nashville, Tennessee.

AFTERNOON SESSION.

Met according to adjournment.

Details of News.

Washington, Sept. 26.—Governor Stanley, having transacted his official business, will return to North Carolina immediately. It is understood that the relations between himself and the Government are strictly harmonious.

It is evident that the rebels are injuriously operating on the Baltimore and Ohio railroad between Harper's Ferry and Cumberland.—They recently, it is believed, destroyed some important bridges West of Martinsburg, including that over the Black river.

New York, Sept. 26.—The special dispatch to the *Tribune* from Washington says, Eli Thayer's scheme for the colonization, by armed men, of the Southern States, which meets with much favor by the present Secretary of War, has been discussed at several Cabinet meetings. It will probably receive the formal official sanction.

The project contemplates an expedition of ten thousand colonists enlisted for six months, supplied with transportation, subsistence, arms, and a general, by the Government, whose business it shall be to possess and occupy the public lands of Florida belonging to rebels, seized under the law of the last session of Congress for the non payment of the direct tax.

Mr. Thayer promises, if allowed to carry out the plan in its entirety, to bring Florida into the Union, as a free State, by February next. Texas and Virginia are talked of as States subject to the same process.

Surgeon General Hammond has returned from the battle field of Antietam, and reports the fruits of our victory to be 20,000 or 30,000 small arms, mostly left by the enemy on the line of retreat.

Louisville, Sept. 25.—The armies of Buell and Bragg left Lebanon, Tennessee, and Carthage, respectively, on the 21st of August, Buell following Bragg in a circuit. Our army travelled 301 miles, and Bragg's 200 miles, but Buell got into Northern Kentucky one day ahead of Bragg, notwithstanding the immense excess of our transportation over that of the enemy.

Items

Prisoners returned from the South have brought with them a list of over three hundred citizens confined in prisons at Richmond and Salisbury, N. C., in most cases for refusing to take up arms and other acts of disloyalty against the rebel Confederacy. Their names are published.

A Sharpsburg letter to the Philadelphia *Enquirer* says that it has been semi officially stated that our loss in the battle of Antietam was 9,220 killed, wounded and missing.

Governor Blair says that Michigan has raised 33 regiments of Volunteers.

This rebellion is to be put down not by a campaign against Democrats or a campaign against Republicans, but by a campaign against the rebels.

Some ten per cent is to be added to the cost of travel on railroads in the State of Massachusetts, and probably in all other loyal States on and after the first of September.

The Lynchburg *Virginian* says that a large number of slaves have stampeded from that place during the past few days, and are undoubtedly on their way to the Yankee lines.

Gov. Campbell of Tennessee, has procured the release of 387 prisoners from that State, who were confined at Camp Douglas, Chicago. They all took the oath of allegiance.

The rebel legislators are shrewd fellows.—They have just enacted that where a substitute deserts, his "employer" is to serve in his place. This is looking after the main chance, certainly, but is rough on the "employers."

The keels of two iron turret vessels were laid on Saturday, August 23d, on the north bank of the Monongahela river, one mile above Pittsburg, Pa. These vessels are to be 174 feet long, 40 feet beam, 5 feet draft of water, 1,000 tons displacement.

Lake Superior copper production has now reached to an amount more than half as great as the Cornwall mines of England. The average production of the latter is about 13,000 tons; that of Lake Superior, for 1861, 8,7[illegible]50 tons. The increase from 1860 is 2,000 tons.

[illegible] LIKE IT.—Some of the trashy two [illegible] secesh about town don't like the [illegible]ent's emancipation proclamation. Of [illegible] not. They do not like any of his acts. The poor frightened devils may rest [illegible] of one thing, however, and that is [illegible] Abraham Lincoln will not permit [illegible] to stand in the way of his efforts to [illegible] rebellion; and that, backed by [illegible] loyal citizen in the Union, with the [illegible] of the civilized world, he will [illegible] undone—let no obstacle prevent [illegible] all that mortal man can do, [illegible] the Union and preserve the Govern[illegible] fathers bequeathed it to us. We [illegible] of men ready and willing to [illegible] last dollar and the last drop of [illegible] the accomplishment of this [illegible]. Every nail that Old Abe drives [illegible] of the rebellion, makes the se[illegible] with fear, and brings vividly [illegible] deluded minds the fact that the [illegible]ionism and rebellion are num[illegible] few. Treason cannot stare him [illegible] countenance, or hinder him from per[illegible] duty to God and man.

[illegible]—The steamer *Sierra Nevada*, F. [illegible] commander, arrived at this port yes[illegible] about three o'clock—having [illegible] a couple of days at St. Helens [illegible] aground. The following is her [illegible]

[illegible]—F Guyman, Villers, E Black, [illegible] E Fulmer, Marx, C F Weygant, E [illegible] C Harris, J H Brown, Mrs Collins [illegible] Meyerfeldt, Dummery, Blumenthal, [illegible] J W J Pierson and daughter, W [illegible] wife, Chas Stone, E Weeks, C [illegible] S R Richards, A Mayer, Miss Mary [illegible] F Bangell, Mrs Allen, Mrs Kalmes, [illegible] McAllory, Mrs A McKee, Miss [illegible] Turnbull, Mrs McDonald, Dr [illegible] Sperry, Mrs Cook, J Colter, Chas [illegible] Friedaugh, Mrs Leach, P Keelan, [illegible] Harrison, W L Woelock, and 35 [illegible]. She brought 500 tons of [illegible]

[illegible]—Mr. H. D. Sanborn was the [illegible] won the lady's gold watch [illegible] for the sum of fifty dollars [illegible] Sanitary fund. Not having a [illegible] he could present it, he very gen[illegible] it over to Mr. Holbrook again [illegible] due to the fund.

[illegible] COURT.—John Ericsson (not of [illegible] however) and Chris. Hayer [illegible] costs, yesterday, for [illegible]ly conduct, which they [illegible] the same offence, was sent [illegible] not being able to pay his [illegible]

[illegible] shipments of gold dust [illegible] ocean steamer this evening.

[illegible] steamer *Sierra Nevada* sails [illegible] for San Francisco via Victoria [illegible] o'clock P. M.

[illegible]—A company of troops, comman[illegible] Barry, and belonging to the [illegible] Territory regiment of Volunteers, [illegible] the steamer *en route* to Fort Steil[illegible] They are a fine looking body of men, [illegible] doubt give a good account of them[illegible] occasion demands it.

[illegible]—Our city is at present crowded [illegible]. The hotels are full—many [illegible] compelled to turn off applicants.

[illegible] DUST.—Another large amount [illegible] down on the steamer *Julia* [illegible]

[illegible]—Our dispatch received last [illegible] no later news than that pub[illegible] of yesterday morning, re[illegible] *Nevada*. We will get later [illegible]

[illegible] MINES.—We were shown [illegible] Cahn & Co., of this [illegible] of quartz gold, taken [illegible] river mines. It was a [illegible]. Millions of dollars will [illegible] of our Northern mines next sea[illegible] to keep a Branch Mint in full [illegible]

[illegible] NEVADA.—This favorite steamer [illegible] once again in our waters—[illegible] here yesterday morning. She [illegible] been overhauled and repaired at [illegible] her old boilers being replaced [illegible] and her wood-work entirely re[illegible] She now presents a fine appearance.

[illegible] We are indebted to J. Stratman [illegible] San Francisco, for a large file of [illegible] and Eastern papers. His news [illegible] the north-east corner of Washing[illegible]some streets.

[illegible] SHIPPERS.—The bark *Almatia*, [illegible] hourly expected, will be prepared to [illegible] quantity of fruit to San Francisco at [illegible] prices. An excellent opportunity for [illegible]ppers. She will sail again soon after [illegible]

[illegible] Patent Lever Trusses.—These [illegible] recommended to the public as the best ever [illegible]. The principle is new and different from any [illegible] Pad works over a Knuckle, giving it a circular [illegible] UPWARD motion, thus being able to support [illegible] with half the pressure required by other [illegible]. The pain consequent upon heavy pressure is avoided. [illegible] instruments will not rust, are the lightest, most [illegible] and most cleanly of all others. They can be [illegible] at pleasure. Many persons have been cured by [illegible] ruptures of several years standing. [illegible] by

SEWING MACHINES

ARE UNEQUALLED BY ANY FOR

BEAUTY AND SIMPLICITY OF CONSTRUCTION

—AND—

Efficiency in Working.

A GOOD SEWING MACHINE

SHOULD BE WELL MADE, simple in its construction, and easily kept in order, should make a tight lock-stitch, alike on both sides of the material, and should sew any and all materials that can be sewed.

It should be able to use cotton, thread, or silk directly from the spool, and to sew from coarse to fine, and from thick to thin, with rapidity, and without change of the tension. It should also be able to make the tension greater or less, on both the under and upper threads, and with uniformity, and should have a *straight* needle; curved ones being liable to break.

The needle should have perpendicular motion—this is absolutely necessary for heavy work.

It should be able to bind with a binder, hem with a hemmer; should stitch, fell, run and gather; and should be always ready to work.

It should be capable of using the same size thread on both sides of the work, and of using different colored thread or silk above or below, to correspond with any two colors of cloth to be united.

It should be able to make a long or short stitch, and to fasten off the seam, and commence sewing tightly at the first stitch, and to run easily, and make but little noise.

It should have a wheel-feed; no others are in constant contact with the work.

It should not be liable to get out of order; neither should it require a screw-driver or wrench to set the needle.

It should not be liable to oil the operator's dress.

It should not form a ridge on the under side, nor ravel.

DR. BAKER'S

PAIN PANACEA.

Is composed entirely of healing gums, and vegetable oil and herbs. It is perfectly safe for the most delicate to use. I can most sincerely say that I have never known any, however delicate, to be injured by it in the least. I will continue to ask the afflicted, who have not used it, to try it for the following diseases: If they are not satisfied with its healing properties, the money will be cheerfully returned by the agent where the medicine is for sale.

If you have pain in the stomach or bowels, try a dose of Pain Panacea internally, bathe externally over the parts affected, and you will at once restore the proper action and relieve the pain.

If you have a Bruise or Wound, bathe it well with the Pain Panacea four times a day. It will relieve the pain, and take out all the poison, and heal the wound in a short time.

If you are suffering from Neuralgia or Rheumatic Pains, apply the Pain Panacea freely, and take a dose of it internally, morning, noon and night; it will not only cure the pain, but will remove the cause of the disease.

If you have the Dyspepsia, and your food distresses your stomach after eating, take a dose of Pain Panacea after each meal.

If you have a Cankered or Sore Mouth or Throat, apply the Pain Panacea, to the affected parts, and gargle the mouth or throat three or four times a day.

If you have the Diarrhoea, or a relaxed state of the bowels, take a dose of Pain Panacea, and they will soon be restored. If your have a painful swelling, bathe the parts freely, and you will soon relieve pain, and the swelling will be reduced.

If you have a severe toothache, apply the Pain Panacea on a piece of cotton and bathe gum at the same time; it will stop the pain instantly.

If you have a pain in the Breast, Side, Back or Kidneys, bathe parts affected morning and night; at the same time take a dose of the Panacea internally.

If a Mother has a caked breast, apply the Panacea as hot as it can be borne.

If you feel chilly or cold, as though you were going to have a fever, take a dose of Panacea.

If you have a wound, cut, or galls upon your horse, apply the Pain Panacea, it will take out all the inflammation and heal the sore in a short time.

It is the result of long experience, and close observation in a great number of cases, and has been invariably successful where other medicines or treatment have failed; thus proving itself to be a remedy, long required by the public.

Soiling Cattle.

It was the boast of the old Oregonians of dates anterior to '49 and '50, that they had at last found a country where they were not engaged five months of the year in filling their barns and hay ricks for the purpose of working the other seven months in foddering their stock. they boasted that in this particular they had found an Eureka. And indeed, there were reasons for that boast. The luxuriant grass of our prairies sprung up with the approach of spring, and grew so rank and heavy in the early summer, that when the later summer appeared with its parching heat and continued drouth, this grass stood up breast deep to the well fattened herds, cured by the sun and unharmed by rain. And then when the warm rains of fall and winter fell upon the earth, this grass again started with renewed life, and the prairies were covered with their heavy carpeting of grass until spring again appeared. These were the good days of Arcadian simplicity, and uninterrupted ease, when the solid old farmers came out in the cool of evening to enjoy the breezes that came fresh and invigorating from the ocean, and to smoke their pipes while they looked complacently forth upon their herds grazing in the luxuriant herbage of the prairies, and then again to the charming scenery of mountain and forest that begirt them on every side. Those were the prosy days of Oregon's existence. She was not as yet awakened by the cry of gold that soon afterwards came up from the banks of Sacramento, and sped on the wings of the wind, summoning her people from their lethargy, and calling hitherward the tide of emigration that settled up more thickly the Willamette, restricted the cattle ranges of the earlier settlers, and soon depriving the prairies of their superabundant herbage.

That boast of the Pioneers is now no longer good. The farmer that now, depending upon the lenity of the climate, neglects to store his barns with fodder, often looks out in the spring-time upon his carrion herds, and regrets sorely his short-sighted folly. The fact is, there has been, and still is, too much reliance placed upon the probability of favorable seasons, and the ability of stock to pick up their own subsistence. There is no denying the fact that as a general rule the farmers of Oregon feed their cattle on too short commons. The old habits, begotten in the sleepy days of yore, have held on altogether too long, although rebuked time after time by dear experience. There must be a change wrought in this respect before we can fairly begin to boast of our farming. It will not do to have our stock enjoy themselves and have a sufficiency during our short springs alone, and then go the rest of the year, poverty-personified—eking out a miserable subsistence. There is neither profit nor humanity in such procedure. Your oxen will not work so well, your sheep will not yield such fleeces, nor your cows furnish such butter and cheese as though you gave them the food they imperatively demand. Farmers must begin to store up more fodder. And not only must they prepare fodder for the winter season only, but for the later summer also. Our seasons are very peculiar. The long dry summers leave our pastures comparatively barren. The grass that started with such vigor in the spring has been closely cropped, and no genial showers come, as in the Atlantic States, to revive it. Hence the necessity is forced upon the Oregon farmers to soil their cattle in the latter part of the summer in order to keep them in good condition—and this can be done without much labor or expense. Let a field of five or six acres be thoroughly manured, then turned up deep and thoroughly in the spring, then sow your corn broad cast upon it, and by the time your pastures begin to be stripped in a great measure of their verdure, this crop will be ready to furnish your cattle with their needed food. It is surprising how little of this will aid in keeping stock in full condition. Let them be fed regularly morning, noon and night, just in the measure needed, and they will preserve their flesh until the rains of fall again freshen your pastures, and be well prepared to pass throughout the winter with but their ordinary food and care. When this system is adopted, and farmers have but to try it in order to adopt and strictly follow it, we may look for better times. Even in the Eastern States, where the showers of summer keep their pastures in much better condition than ours, the best farmers are universally falling into the habit of soiling their cattle. There in the Eastern States where economy has to be practiced this plan is pursued for the reason that it is more economical. A farm where soiling is judiciously followed, will keep in good condition twice the stock that it would keep when cattle were not soiled, and only at the expense of a little extra labor which is trebly counterbalanced by the additional benefit such a system will confer upon the land. We hope that the farmers of Oregon will consider this matter, and if doubtful of its expediency give it a fair trial. We will pledge our word that your cattle will not be injured by keeping them well fed, nor your farms by keeping them well tilled—and these are the legitimate effects of soiling stock.

SACRAMENTO STREET, BELOW MONTGOMERY,
Opposite Pacific Mail Steamship Company's Office, San Francisco.

ESTABLISHED IN 1854 FOR THE PERMANENT cure of all Chronic and Private Diseases, and the SUPPRESSION OF QUACKERY. Attending and Resident Physician, L. J. CZAPKAY, M. D., late in the Hungarian Revolutionary War, Chief Physician to the 20th Regiment of Honveds, Chief Surgeon to the Military Hospital of Pesth, Hungary; the late Lecturer on Diseases of the Urinary Organs and Diseases of Women and Children, and Honorary Member of the Philadelphia College of Medicine.

☞ Particular attention paid to the treatment of all diseases peculiar to Women and Children.

Office Hours—From 9 A. M. to 9 P. M.

☞ Communications strictly confidential. Permanent cure guaranteed, or no pay. Consultations, by letter or otherwise, FREE.

Address, DR. L. J. CZAPKAY, San Francisco.

Of all diseases, the first great cause,
Springs from neglect of Nature's laws.

To the Afflicted!

Suffer not when a cure is guaranteed in all stages of secret diseases—Self Abuse, Nervous Debility, Syphilis in all its stages, Strictures, Gleet, Gravel, Diabetes, diseases of the Kidneys and Bladder, Mercurial Rheumatism, Scrofula, Pains in the Bones and Ankles, diseases of the Lungs, Throat, Nose and Eyes, Ulcers upon the Body or Limbs, Cancers, Dropsy, Epileptic Fits, St. Vitus Dance—and all diseases arising from a derangement of the sexual organs—such as Nervous Trembling, Loss of Memory, Loss of Power, General Weakness, Dimness of Vision, [illegible] peculiar spots appearing before the eyes, Loss of Sight, Wakefulness, Dyspepsia, Liver Diseases, Eruptions upon the Face, Pains in the Back and Head, Female Irregularities—and all improper discharges of both sexes. It matters not from what cause the disease originated, however long standing or obstinate the case, recovery is certain, and in a shorter time than a permanent cure can be effected by any other treatment, even after the disease has baffled the skill of eminent physicians, and resisted all their means of cure. The medicines prescribed are pleasant, without odor, entirely vegetable, causing no sickness, and free from mercury or balsam. During fifteen years of practice in Europe, the Atlantic States and California, I have rescued from the jaws of death many thousands, who, in the last stages of the above-mentioned diseases had been given up to die by their physicians, which warrants me in promising to the afflicted, who may place themselves under my care, a speedy and permanent cure. Private diseases are the greatest enemies to health, as they are the first cause of consumption, scrofula, and many other diseases, and should be a terror to the human family. A permanent cure is scarcely ever effected—a majority of cases falling into the hands of incompetent persons, who not only fail to cure the disease, but ruin the constitution, filling the system with mercury, which, with the disease, hastens the sufferer into a rapid consumption. But should the disease and the treatment not cause death speedily, and the victim marries, the disease is entailed upon the children, who are born with feeble constitutions, and the current of life corrupted by a virus which betrays itself in scrofula, tetter, ulcers, eruptions and other affections of the skin, eyes, throat and lungs, entailing upon them a brief existence of suffering, and consigning them to an early grave.

Self-abuse is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering, down to an untimely grave. It destroys the nervous system, rapidly wastes away the energies of life, causes mental derangement, prevents the proper development of the system, disqualifies for marriage, society, business and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of self-abuse, that a permanent and speedy cure can be effected, and with the abandonment of ruinous practices, my patients can be restored to robust, vigorous health.

Irregularities, and all diseases of males and females, treated on principles established by fifteen years of practice and sanctioned by thousands of the most remarkable cures. Medicines with full directions sent to any part of the State, Oregon and Washington Territory, by patients communicating their symptoms by letter.

All business correspondence strictly confidential. Address DR. L. J. CZAPKAY, Medical Institute, Sacramento street, below Montgomery, opposite Pacific Mail Steamship Co's Office, San Francisco.

Remarkable Instance of Medical Relief

Below we publish the certificates of Cures of the sufferers from the pangs of disease, who, having recovered their former health, and impelled by gratitude, make known their cases and to [illegible] and the statement is authenticated by a Notary Public. The documents are of [illegible] importance to the public, and we commend them to the attention of all afflicted.

Certificate. The undersigned, desirous of acquainting those who may be unfortunate enough to be similarly afflicted, where a permanent relief of their suffering may be obtained, I [illegible] duty to thus publicly express his most sincere gratitude to Dr. L. J. Czapkay, for the permanent recovery of his health. Borne down by the distressing symptoms incident to the vicious practices of uncontrolled [illegible], depressed in body and mind, unable to perform even the most trifling duty imposed upon the ordinary avocations of life, I sought the advice of many physicians, who at first regarded my disease as of trifling importance, but alas! after a few weeks, and in several instances months, of their treatment, I found to my unutterable horror, that instead of relief, my symptoms became more alarming in their nature, and being told by one that my disease being principally confined to the brain, medicine would be of little consequence, I despaired of ever regaining my health, strength and energy; and as a last resort, and with but a faint hope, called upon Dr. Czapkay, who, after examining my case, prescribed some medicine which almost instantly relieved me of the dull pain and dizziness in my head. Encouraged by the result, I resolved to place myself immediately under his care, and by a strict obedience to all his directions and advice, my head became clear, and my ideas collected, the constant pains in my back and groins, the weakness in my limbs, the nervous reaction of my whole body on the slightest alarm or excitement, the misanthropy and evil forebodings, the self distrust and want of confidence in others, the incapacity to study, and want of resolution, the frightful, exciting, and at times pleasurable dreams at night, followed by involuntary discharges have all disappeared, and in fact, in two months after having consulted the doctor, I felt as if inspired by a new life—that life which but a short time ago I contemplated to end by my own hand. With a view to guard the unfortunate from falling into the hands of unprincipled quacks, I deem it my duty to offer this testimonial to the merit and skill of Dr. Czapkay, and to recommend him to all who may stand in need of medical aid, being assured by my own experience, that one man's hand can be relied upon to permanently cure the afflicted.

MARYSVILLE, June 31, 1856.

Dr. L. J. Czapkay, San Francisco—Sir: I have used the last of your medicine and do not think I shall need any more, as I feel very well except that I have not entirely got my strength yet, but am well with the appetite I have. It is just three weeks, you may recollect, since I called at your Institute, with my constitution, as I thought, broken entirely, and never thought you would be able to cure me perfectly, but thought you might be able to do something to ease the pain in my back and head, and strengthen my nerves so that I would not get excited and tremble at everything. Now that you know what I expected you may [illegible] in your discovery from those symptoms, and the removal of those sores and blotches from my skin, and the ulcers from my throat, and the entire dispersal of the [illegible] which you said were primarily the cause of my sickness. I can hardly tell you which is the greatest, my joy or my surprise, for except not having fully got my strength, I feel as well as any man can feel.

Enclosed I send you twenty dollars over your charge, and think my life cheaply cured. If you think anybody will be benefited, you may put this letter in the newspapers. Believe me gratefully yours. THOMAS HAYDEN.

Thankfulness is the incentive of gratitude.

CERTIFICATE.—Prompted by an honest desire of my heart, I wish to add to the public a case which deserves commendation, not only as an act of scientific skill, but that of humanity also. About two years ago, I suddenly and from causes unknown to me, was seized with a fit of epilepsy, which, owing to my inability to meet the expenses consequent upon a thorough medical treatment, and the discouragement which I met with in attempting it, soon became such (I was then led to believe) as to defy the skill of any physician. I was frequently, while in pursuit of my calling, thrown down to the ground without the slightest warning; and although insensible to the agonies, I yet despaired the miseries of my life, and soon learned to look upon those who would render assistance or shelter me from danger as enemies who sought to prolong the existence of my miseries. While in this state, and having, previous to my affliction, tasted the sweets of life, I once more was induced to attempt, seeking aid of a physician, and, by recommendation, called upon Dr. L. J. Czapkay. I told him of my circumstances, and of my inability to reward him for his services; regardless of which, however, he at once undertook my case, and with the blessing of God, I was once more restored to perfect health. Unable to reward him for the boon which I enjoy at present, and yet conscious of my indebtedness, I consider it due to myself and all afflicted, to make the case public, in order that those in need of medical advice may find a physician in whom every confidence can be placed.
